

In watching the Noon "News" on WLOS Channel 13, Asheville, North Carolina, on 15 Sept 2004 around 12:50 p m, I saw "The Point" news commentary on John Kerry's first Purple Heart.

This was presented as unbiased investigative reporting about John Kerry fraudulently getting a Purple Heart.

It was effectively a very partisan attack ad.

No mention was made of Mark Hyman's or Sinclair's connections to the Bush Campaign.

I do not think that this type of manipulation and deception on our public airways deserves a license renewal at the end of 2004/ early 2005.

I am basically incensed by this blatant misuse of a public broadcast frequency.
